## **COURSE SYLLABUS ADDENDUM**

**Important - Please Read - Do Not Discard**

**It is each student's responsibility to read all course materials, including course syllabus and addendum, and to know and understand the course requirements, exam score minimum requirements, and deadlines. Students enrolled in VESi courses are required to check their email for any communications regarding the course until their final grade is posted with the college or university. Once your course materials are received by VESi and have been reviewed, the GRADE IS FINAL.**

### **Final Case Study Paper - Behavior is Language**

After completing the examinations, you will be required to write a final case study paper. For the paper you will be required to choose a \*student you are working with in your classroom or program. If you are not in a classroom setting or currently working with students, you may choose a child from some alternate setting, i.e. home, family, neighborhood, church group, etc. You will develop a remediation plan based on your interpretation of that student's world view, inner world, non-verbal communications, how he/she scripts the adults in the classroom, and where he/she tends to power struggle. The remediation plan should include which behaviors you plan to target for change, a step-by-step consequence ladder that details the consequences for the student's predictable behavioral outbursts, and a back-up plan if your initial intervention attempts are unsuccessful. You may also want to include in your paper how you plan to approach debrief situations and what the focus of those debriefs will be. You will conclude the paper by discussing your interpretations of the student's views, emotions, and behaviors. Also included should be the effectiveness of your plan on classroom management with that student and your level of personal stress before attempting this program and after. You may also include your impressions of the course, pieces you enjoyed, sections that did not make sense or were not useful, or the overall value to you personally.

The paper should be a minimum of 3 pages in length, but no more than 7 pages (single spaced, 12 font). Only typed or word-processed papers will be accepted. 50% of your grade will be figured on your examination scores and 50% will be figured on your written assignments, including your final paper. **You must complete all examinations with a minimum score of 70% or higher and complete ALL writing assignments to pass this course.**

\* It is your responsibility to find a student or child to work with and complete your final case study assignment. If you do not have a current classroom assignment, you may want to speak with a local school, child care facility, church or other community organization about a child for observation and assessment.
